

Encapsulated Citrus Flavor
Delivering Fidelity & Impact

Flavorcell®

You deserve a reliable partner who can provide encapsulated citrus solutions that meet your requirements and your consumers' taste expectations. We understand the challenge of delivering an impactful citrus flavor experience while preserving flavor integrity throughout the manufacturing process.

Count on McCormick Flavor Solutions to provide consistent, impactful flavor and retention with FlavorCell® encapsulation technology.

Preserve flavor integrity

- Improve flavor stability and volatile retention to withstand the rigors of processing
- Extend flavor shelf-life for impactful delivery in finished product

Experiential flavor to excite your consumers

- Capability to deliver complex flavor profiles with sequential flavor release
- Matrix composition options designed for specific release conditions, including both rapid and slow dissolution
- Robust toolkit of citrus flavors and particle sizes
- Ability to flavor match or create custom flavors

A partner you can trust

- Technical expertise and guidance
- Available capacity and fast lead times
- Low minimum order quantities

Ready to find an encapsulated citrus flavor that's right for your brand?
With a toolbox of available flavors and the ability to custom create, we can fit your needs, and fast.
